Introduction

This manual will help guide users through the functionality of the Retail Program Standards (RPSRS) database website. The RPSRS database contains the National Retail Food Regulatory Program Standards and Interpretations. Developed and recommended by the U.S. Food and Drug Administration with input from federal, state, and local Regulatory officials, Industry, trade associations, academia, and consumers.

This document serves to provide users with a general understanding of how the RPSRS database operates and what functions users can perform. The RPSRS system is an External use website that allows users to logon through login portal.

RPSRS External Login and Homepage

To access the RPSRS External Database, logon using the following URL:

https://cfsanappsexternal.preprod.fda.gov/scripts/rpsrs/?&ad=f57d32eb-aaf6-44f6-b665-c996d4f601e7

Disclaimer	
The Retail Program Standarts Reference System (RPSRS) is a searchable database that contains the Food and Drug Administration's FDA's interpret responses to questions related to the FDA Retail Program Standarts. It is intended to promote consistent understanding and application of the Food O efforts to prevent foodborne illness through the application of science-based food safety principles in retail and foodservice settings. Use of this database create or confer any rights for or on any person and does not operate to bind FDA or the public. Although the content of the FCRS is consistent with the FDA's thinking regarding best practices, the content does not supplant a state, local or tribal regulatory authority's applicable governing food safety reg	tive positions and bode and support the FDA's ase or its content does not te FDA Food Code and/or gulations.

Standards		Standard 1-10	Std 1 10. Details required in a hearing request pdf During a recent audit of Standard 1, an issue arose concerning the comparison between our code and the FDA Food Code. Section 8-905.20 requires that the individual responding to a notice of hearing or requesting a hearing make a request in writing and that the request includes the content specified 8-905.20. Standard 1 requires compliance and enforcement 'at least as stringent as' the selected provision of the FDA Food Code and Annex 1 of the Food	Jun 8, 2022

RPSRS Document Database Figure 6

Users will be brough to the Database that houses all the uploaded Standards and Interpretations associated with RPSRS.

Reference Search

The reference search is the main feature that will allow users to search for documents that have been uploaded to the system by RPSRS Administrators. There are two main features that will allow users to search for documents, Basic and Advanced Search.

To navigate to the Reference Search, **Click** on the **Reference Search** menu link from the RPSRS Homepage.

Reference Search Figure 7

By default, the system will display all documents that have been uploaded to the RPSRS system. Users will be able to use two different types of searches to look for documents. Basic and Advanced.

- **Basic Search** Simple free form text search. Searches all words that are in a document, document title.
- Advanced Search More advanced search that allows user to further define search by selecting certain criteria. Users can search on the following:
 - Standard Document Allows users to select the Standard Document that is being referenced.
 - **Worksheet Provision** Allows the User to identify which standard and which Interpretation they want to search for
 - Document Text Same as basic search, this is a free from text field where users can type in alphanumeric text to search.

Document Date, Date Range, or length of time – Users can type in a single date, a date range, or they can search for documents that have been uploaded within the last month, 3 months, 6 months, or 12 months.

Please Note: Using the Advanced Search and narrowing down the search with multiple selected fields could result in no results if things are too specific.
